

## Railroad Fans Enjoy Excursion

---

**(Columbus Dispatch, May 26, 1952)** Model railroad and camera fans swarmed over and around a big locomotive in Waverly Sunday during an excursion trip from Columbus to Portsmouth. About 500 people, including many who just like to ride trains, left Union Station at 9 a.m. on a Norfolk & Western train, picked up others at Circleville and Chillicothe and made two stops in the country for picture making purposes. Three Correale models went along to dress up the picture.

---

An unknown railfan took this photo on the 1952 excursion from Columbus to Portsmouth. The three Correale models, wearing sports clothes from Lazarus, were a tradition on Camera Club trips in the 1930s and after the WW II.

Norfolk & Western K2a, No. 136 is a 4-8-2 locomotive. Photo from the Alex Campbell Collection.
