===**Special 2016 Photo Edition**=== [Section 2 of 2]

Continued: 'Lines West' member Gary Salzgeber's PRR HO layout & 2016 Annual Meeting.

Gary has spent countless hours on his remarkably detailed, PRR HO layout.

The Doddroe brothers, Bert and Al, look over Gary's PRR layout.

Gary's special focus on PRR history and detail is seen here with classic Pennsy Position Light Signals, 'Truc Train' with EMD diesel's and hand-crafted scenery.

Gary has continued his special HO layout design with PRR station and freight facilities.

This magnificent diorama, grand prize winner, built by PRRT&HS member Mike Crosby features the PRR's Ft. Wayne massive coaling facility. On display at our 2016 Annual Meeting Camp Hill.

Mike's extra fine detailing is prototypical. The 'long gone', razed facility has been 'brought back to life'.

Mike, master diorama builder, talks with PRRT&HS member.

Vender tables were filled with historical Pennsy artifacts.
